Modern craftsmanship that sprinkles the origins of Japanese beauty and the glow of urushi (lacquer) and fits seamlessly into your life.

STYLE+PLUS is a Kyoto-born brand for interior design that integrates materials with tradition, technologies, and people. With the concept of "adding extra colour to the space and life", safe and high-quality products made from natural material are delivered. This URUSHI HANDLE is a masterpiece that applies traditional Japanese natural urushi to a handle made of light, solid aluminium. Each product is handmade by trained craftsmen who represent Kyoto, and the deep and glowing colour demonstrates their years of mastery. Enjoy the different uniqueness of each individual product as the colours of urushi sensitively respond to the changes in temperature and humidity.

Urushi-nuri experts, who are known for their contribution to the restoration of cultural properties, are challenging the new world of urushi-nuri (lacquer coating/painting) with their youthful creativity and well-established techniques.

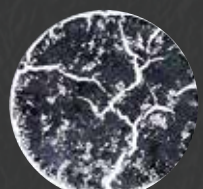

Makino Urushi Kogei (Makino Lacquer Crafts Co., Ltd.) has been taking part in the decades-long restoration of crucial cultural properties in Kyoto such as Kinkaku-ji Temple. The beautiful knob with natural urushi was produced by collaborating with urushi-nuri experts, who challenge the innovative technique based on their trusted traditional skills. The unique and expressive texture of our products subverts the stereotyped images of urushi-nuri products by applying various techniques to each carefully repeated coating process. Would you like to bring the traditional beauty into your daily life (doors, cabinets, desks, and drawers) using your own creativity?

Production Schedule

How to handle the products/Precautions for use

- Rough handling of the products may cause urushi-nuri to come off.
- Avoid leaving the product in direct sunlight, even when indoors.
- Avoid leaving any wet stains on the product for an extended period of time. Gently wipe any wet excess with a soft fabric.
- Gently wipe the product with a soft fabric to avoid being covered by dust.
- Wipe the product with diluted neutral detergent to remove any stains.
- Colour may change over time as natural urushi is being used.
- Takes roughly 3 months to be delivered.
- Personalised designs will try to meet the customer's expectation as much as possible through consultation.
- Finished colour might vary as each product is handmade.
